

**PROVIDENCE PIPE
PRODUCT, INC.**

Powering Progress Since 2005

9435 Sorensen Ave,
Santa Fe Springs, CA 90670
(562) 803-1273
sales@providencepipe.com

Your One-Stop Conduit Partner

Precision Bending

Custom elbow sweeps

- ✓ **Fast-Turnaround:**
Providence provides domestic production with no overseas delays.
- ✓ **Cut & Fab Services -**
Custom Cuts & Job-Specific Options to streamline any job requirements.

- ✓ **Industry-Specific Expertise -** Designed with NEC and UL compliances for proper installation, grounding and durability.

Your Orders, Our Priority—Now
with 4X Capacity!

Elbows

EMT & Rigid Steel
11.25°, 15°, 22.5°, 30°, 45°, 60°, 90°

Full Range

From conduit, sweeps, fittings and more —
Providence delivers the complete raceway system package, all in one shot.

Immediate Availability
Minimum lead time, We aim to ship the same day.

Electrical Conduits

EMT, GRC, IMC

This conduit fill chart is used to determine how many wires can be safely put into non-PVC conduit tubing or pipe. Each row going across is a different conduit size and type of metal conduit, either Electrical Metal Tubing (EMT), Intermediate Metal Conduit (IMC), Galvanized Rigid Steel Pipe (rigid metal conduit, RMC), or Flexible Metal Conduit (RMC). Each column (going up and down) is a different gauge of wire, either AWG or MCM. The results show the allowable number of wires for each size/type of conduit and wire, based on the 2020 NEC® code.
